Nikoloz Kavtaradze

Senior Full-Stack Engineer

+995 592 296 161 | n.kavtaradze94@gmail.com | Tbilisi, Georgia (GMT+4) | nkavt.dev | linkedin.com/in/nikoloz-kavtaradze-012139166

SUMMARY

Senior full-stack engineer with 10+ years of experience owning features across the entire stack, from API and schema design through backend services and data layers to React and TypeScript user interfaces. Has shipped production systems in Node.js, Ruby on Rails and Laravel, giving broad judgment on ORMs, data access and service design. Operates at lead level: identifies problems, designs the solution and makes the technical decisions in his area. Hands-on experience integrating LLM APIs into a production platform and using AI-assisted coding tools daily.

SKILLS

Languages: TypeScript, JavaScript, Ruby, PHP, SQL
Backend & APIs: Node.js, REST API design, GraphQL (personal projects), Ruby on Rails, Laravel
Frontend: React, Next.js, TypeScript, React Native, Redux, Hotwire / Turbo
Data: PostgreSQL, MySQL, schema design and query optimization, ORMs and query layers (ActiveRecord, Eloquent), Firebase, Firestore
Testing: Unit and E2E testing, E2E test pipelines, Jest, Capybara, PHPUnit
DevOps & Cloud: Docker, Git, GitLab CI/CD, Google Cloud (Cloud Functions, Cloud Tasks, Cloud Scheduler), AWS (CloudWatch)
Observability: Production debugging with log queries, on-call incident investigation
AI: LLM API integration (ChatGPT / OpenAI API), Claude Code with YouTrack and GitLab MCP integrations

WORK EXPERIENCE

Senior Full-stack Developer · OnTheGoSystems — Jan 2024 – Sep 2026
Remote

- Owned features end to end on translation products built with Ruby on Rails and React (TypeScript), from specification and design through implementation and release.
- Acted as technical owner in my area: identified problems, designed solutions and made the implementation decisions, with plans reviewed by the team lead before execution.
- Built an LLM integration layer for the PTC translation platform that sends content to ChatGPT, receives the responses and analyzes them before they are applied in production.
- Diagnosed and fixed production performance problems: traced a 6 second page load to a status calculator scanning the translation memories table twice, reworked the query, and cut page load roughly 50% verified against real project data.
- Designed MySQL schema changes under migration safety constraints, including unique indexes, virtual generated columns, and batched backfill scripts across joined tables.
- Built and maintained E2E test pipelines, and instrumented an untimed git clone step to locate the bottleneck in a 130 second merge request flow, then proposed sparse checkout and cached repository fixes. Handled on-call work, including a critical pipeline outage.

Senior Full-stack Developer · Genero — Aug 2022 – Jan 2024
Helsinki, Finland (Remote)

- Designed and shipped backend services in Node.js and TypeScript on Google Cloud, using Cloud Functions, Cloud Tasks, Cloud Scheduler, Firebase and Firestore.
- Delivered new projects and features for existing products end to end across the TypeScript stack, with React on the front end, plus WordPress and WooCommerce integrations.

Senior Full-stack Developer · Devolon — Mar 2021 – Aug 2022
Tallinn, Estonia (Remote)

- Planned and developed new customer projects across React, React Native, TypeScript and Laravel, and reviewed pull requests from other developers.

Full-stack Developer · Idea Design Group — 2016 – Mar 2021
Tbilisi, Georgia

- Planned and built new projects while maintaining and evolving existing ones, working primarily with React and Laravel.
- Mentored and oversaw junior developers on the team.

Junior Front-end Developer · Idea Design Group — 2014 – 2015
Tbilisi, Georgia

- Built front-end markup and UI. Departed for a one-year Erasmus program in Portugal, then returned at the company's request.

EDUCATION

BSc, Software Engineering · Polytechnic Institute of Bragança, Portugal — 2015 – 2016
Erasmus exchange under a double-diploma agreement with home university.

BSc, Software Engineering · Black Sea University, Tbilisi, Georgia — 2012 – 2015

LANGUAGES

Georgian: Native **English:** Professional working proficiency
